Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,24 and 25 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Root '179

See first hinge member 9 and second hinge member 8, both of which have sections having different radii of curvature along with a "generally" straight lip. The insides and outsides of the hinge members engage each other as recited in the respective positions shown in Figs. 1 and 2.

Applicant's traverse is noted. However, no specific reasons have been given for objecting to the restriction. Consequently, the restriction is proper and is made final.
